

CALCUL

STRATÉGIQUE

Les presque-doubles.

$5+6=$

$3+4=$

$7+7=$

$6+7=$

$4+5=$

$7+8=$

$8+9=$

$8+9=$

Comment utiliser
les doubles pour
calculer plus vite ?

$$5 + \cancel{5} 6$$

$$10 + 1 = 11$$

$$5+6$$

$$5+5=10$$

$$10+1=11$$

$$8 + \cancel{8}9$$

$$16 + 1 = 17$$

$$8+9$$

$$8+8=16$$

$$16+1=17$$

$$7 + \cancel{7} 8$$

$$14 + 1 = 15$$

$$7+8$$

$$7+7=14$$

$$14+1=15$$

$$6 + \cancel{6}7$$

$$12 + 1 = 13$$

$$6+7$$

$$6+6=12$$

$$12+1=13$$

$$5+5+1=11$$

$$7+7+1=15$$

$$9+9+1=19$$

$$8+8+1=17$$

$$5+5+1=11$$

$$6+6+1=13$$

CALCUL

STRATÉGIQUE

C'est fini !
